

---

Just want to thank-you  
and your staff for helping me  
so much. I know you were  
not 100% of this surgery, but  
you tried it anyway and it  
WORKED! I am so happy not  
to have that horrible burning  
any more. ☆ You have  
given me my life back.

Everyone in the operating  
room that day were like my  
little angels. And you were  
the CEO angel! All the  
nurses at hospital were so very  
kind to me.

I cant thank you  
enough!
